### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Zborovsky, Ilya on March 16, 2005.

The application has been amended as follows:

In the claim:

- a) Cancel claim 8.
- b) "inner electrodes disposed between them" (claim 9, line 3) has been changed to: --inner electrode disposed between layers of the piezoelectric sheet--.
- c) --providing an inner electrode between the layers of the continuous strands-- has been inserted between the phrases "piezoelectric sheet;" (claim 9, line 5) and "winding the two strands" (claim 9, line 6).
- d) "an inner electrode between them" (claim 9, lines 7-8) has been changed to: --the inner electrode between the two continuous strands--.
- e) "already-wound" (claim 9, line 10 and claim 10, line 3) has been changed to: --hollow-cylindrical--.
- f) "the deflection rollers" (claim 12, line 2) has been changed to: --deflection rollers--.
- g) "electrode paste (12)" (claim 12, line 3, and claim 13, line 2) has been changed to: --electrode paste (12) applied to a surface of the two continuous strands--.

Art Unit: 3729

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the specific limitation of "winding the two strands over one another to form a double helix hollow-cylindrical stack with inner electrode between the strands by pressing rollers to form a piezoelectric actuator" as set forth in the present invention claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghai D. Nguyen whose telephone number is (571)-272-4566. The examiner can normally be reached on Monday-Friday (9:00-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter D. Vo can be reached on (571)-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
